# Update: Grand Slam Blend Enhances Dodgers Post-Season Turf

In May of this year we featured our new grass seed product: *Grand Slam FS - Faster Spreading Perennial Ryegrass Blend,* http://www.stoverseed.com/PDFs/Grand_SlamFS.pdf

This ryegrass blend contains three newly developed ryegrass cultivars that exhibit faster rates of germination and establishment, and demonstrate exceptional spreading growth. Grand Slam FS possesses improved disease resistance. All of these characteristics help create an exceptionally high-quality turf ideal for sportsfields.

This exciting new product was selected to enhance the turf at Dodger Stadium (home of the Los Angeles Dodgers) to help them with their post season play-off run.
